In Honor and/or Memory of.... Background of Honorees

Alan Olson – Award of Excellence

Relationship with AZBO:

Alan was the model of excellence for Building Officials. He served on the ICBO Board of Directors from 1990 to 1999, serving as the Chairman in 1997-1998. He was one of eight individuals (4 ICBO and 4 BOCA) who signed the incorporation papers that created the ICC. Alan was president of the Arizona Chapter in the early 90's when AZBO was formally created as a coordination and education facilitator for all three Arizona ICBO Chapters.

Career:

Alan is a licensed Architect, Certified Building Official and Certified Building Inspector. He settled his family in Arizona in 1988 and became the Building Official of the City of Phoenix, after serving as Building Official in Orono-Minnesota, Dallas-Texas, as well as a Volunteer Firefighter in Mound-Minnesota. During his career he has also volunteered his time on the AZ Attorney General ADA Subcommittee, the Fire and Life Safety Code Development Committee, the Code Coordinating Committee, the Credentials, Education, Finance and Executive Committees as well as serving on the Board of Directors for CABO. He has a Bachelor and Master of Architecture from Montana State University.

He is currently splitting his retirement time between Sun City, AZ, where he is a Building Codes Subject Matter Expert at Gervasio & Assoc. Inc., and Montana where he has personally constructed and designed three houses with his wife of over 50 years. During those years they both worked and raised three independent and successful children of whom they are most proud.

Pat Trueblood – Building Official of the Year Award

Relationship with AZBO:

Patricia Trueblood was considered the heart and soul of the Arizona Chapter.

She and Larry Richards worked to establish the Education Committee and the Annual AZBO Educational Institute, starting at Embry Riddle in Prescott.

She was affectionately referred to there as the “Den Mother” for the dorms, where many Building Official friendships were formed. She was always willing to lend an ear, share her experience, and help others along the path of development to ethical, educated, and caring public service.

Career:

Pat moved to Arizona in 1958 and worked in Glendale as one of the first female inspectors. She served as the Building Official of the City of Peoria for many years.

Pat passed away in 2006

Robert Graffius – Building Inspector of the Year Award

Relationship with AZBO:

Bob always encouraged his co-workers and others in the building safety community to continue their education in the industry and to be involved on committees.

Career:

Robert G Graffius was born in Altoona, PA. He moved to Arizona in 1978 for the construction boom. He worked for construction companies building houses as a Framer, Framing Foreman, and quickly promoted to Building Superintendent.

In 1987 he started at the Town of Gilbert (employee # 34 in the Town's history). He was Building/Offsite Inspector, Plans Examiner, Building Inspector Supervisor, and Senior Plans Examiner. He was instrumental in putting together their Building Department and in Gilbert's participation in MAG (Maricopa Association of Governments) for regional planning and code enforcement. Bob continued his education and obtained many certifications.

Bob was the Chairman of the Arizona Chapter of International Association of Electrical Inspectors, member of International Conference of Building Officials, subcommittee chairman with IAEI, ICBO and IAPMO. He also served on numerous hiring boards throughout Arizona.

In 1996 he was hired by Stantec Consulting as a Senior Plans Examiner where he continued his education and certifications up and until his untimely passing in March of 2002.

Bob's work ethic, honesty, integrity, kindness, involvement, chairmanship and “do it right and safe” attitude was who Bob was. You would be hard pressed to find anyone to disagree.

Bob is missed by his family and also by the building code community but the dedication to his family and to the building code community will never be forgotten.

~Bob Graffius, CBO, Buildings Inspection Manager, City of Chandler (Robert's son)

In Honor and/or Memory of.... Background of Honorees

Don Cunningham – Plan Reviewer of the Year Award

Relationship with AZBO:

As a strong proponent of education, Don arranged for Embry Riddle as the first site of the AZBO Educational Institute. He loved sharing his skill as a plans examiner and through the years assisted many in learning the trade.

Career:

Don served as Building Official for Yavapai County after moving from California to Arizona. He was a prime mover in the Northern Arizona Chapter of ICBO.

Brent Snyder – Achievement in Education

Relationship with AZBO:

Brent taught classes for AZBO for many years before he died in 2006 after a long battle with illness. He was an amazing instructor and a great inspiration to many. He always made time for anybody with questions and encouraged you to reach out to him anytime, not just when he was teaching for AZBO.

Although he wasn't a jurisdictional member of AZBO, he worked tirelessly to make sure he made all of AZBO's educational events. He was a beloved teacher and provided many members the wisdom and the tools to succeed in their careers.

Career:

He was the past president of ICBO (Uniform Building Code), outstanding code educator, trainer, and mentor of many existing Building Officials across the nation. He was instrumental on the Uniform Building Code Committee to start the International Code Council. He was Building Official for several municipalities prior to starting his Code Education Consulting Business.

Forrest Fielder – Achievement in Code Development

Relationship with AZBO:

Forrest was active with AZBO on many levels.

For several years he served on the Central Chapter Board, the AZBO Board and numerous Committees including The Code Development Committee.

His contributions to Arizona's Building Safety Community are immeasurable.

Career:

From the age of 17 Forrest had a vision to make a difference in the world.

He studied Political Science in Washington. Then he was introduced to carpentry and the world of building. He started his own contracting business "Forrest Homes". He became the first builder in Whatcom County to introduce Passive/Solar Design. He was met with a great deal of resistance and skepticism from the community.

The concept of sustainability was becoming more relevant to his style of building.

His vision included encouraging people to be their own builders, hence eliminating the middleman. This became the ground floor of the "U Build It" idea.

He realized there was a huge piece missing in the development of his wholistic approach to the industry. He needed the complete knowledge of the codes that were the foundation of everything, to include fire, electrical and accessibility.

The City of Surprise presented him with that opportunity. He was plans examiner prior to his position as Building Official.

I trust that all of the people who were blessed to have had Forrest as a mentor and colleague will attest to his passion, not only for the industry, but for the growth of those who shared and continue to share that passion.

His legacy continues to live on.

~Patsy Fielder (Forrest's wife)

Forrest died after a long battle with illness in 2016
